

Debt Investor Presentation

June 2024

This presentation is general background information about the NAB Group. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. Refer to pages 93-96 for legal disclaimer.

Key messages

- 1H24 financial results reflect consistent execution across our businesses in a challenging environment
- Balance sheet settings remain prudent
- Majority of customers are resilient and we are supporting those who need it
- New Executive Leadership Team to take NAB forward
- Opportunity to evolve our strategic priorities – focus and disciplined execution remain key to long term performance

Australian economy on track for soft landing

Economic growth to remain soft in 2024 before improving in 2025 and 2026

- Australian GDP growth of 1.7% expected in 2024, improving to around trend growth of 2.3% in 2025 and 2026
- Inflation moderated from peak and labour market strong
- Pressure on households expected to ease in 2H24
- Business conditions resilient, but confidence soft
- Geopolitical risks elevated
- Key to outlook is ongoing resilience of the consumer, labour market strength and inflation

Cash rate expected to fall as inflation continues to moderate¹

Business credit growth is expected to moderate over 2024; housing credit to remain stable²

Conditions above long run average; confidence improved but remains weak in retail³

(1) Source: ABS, NAB, RBA. Actual data to March 2024, NAB forecasts to December 2025

(2) Source: RBA Financial Aggregates as at Feb 2024. Year-ended growth. Business lending includes select financial businesses

(3) Source: NAB Economics. Three-month average of net balance for confidence and conditions by industry from the NAB Monthly Business Survey as at March 2024. Other services include finance, business and property

Consumers are adjusting, but the labour market has held up

Consumption growth has slowed¹

The household savings rate is now below pre-COVID levels²

The unemployment has edged up but remains low³

Job vacancies have fallen but remain elevated⁴

Financial results

Metric	1H24	2H23	1H24 v 2H23
Statutory net profit (\$m)	3,494	3,447	1.4%
Continuing operations - Cash earnings basis¹			
Net operating income (\$m)	10,138	10,125	0.1%
Operating expenses (\$m)	(4,677)	(4,602)	1.6%
Underlying profit (\$m)	5,461	5,523	(1.1%)
Cash earnings (\$m)	3,548	3,661	(3.1%)
Cash return on equity	11.7%	12.0%	(30 bps)
Dividend (cents)	84	84	-
Cash payout ratio ²	73.7%	71.8%	190 bps

(1) Refer to note on cash earnings in disclaimer on pages 93-96

(2) Based on basic cash earnings per share (EPS)

Group financial results

P&L key financial indicators	1H24 (\$m)	1H24 v 2H23
Net operating income	10,138	0.1%
ex Markets & Treasury	9,282	(0.9%)
Operating expenses	(4,677)	1.6%
Credit impairment charge	(363)	(11.2%)

(1) Refer to note on cash earnings in disclaimer on pages 93-96

1H24 revenue impacted by lower margins

Net operating income (HoH)

Markets & Treasury (M&T) income breakdown

Key revenue drivers HoH

- Margin impacted by competition, partly offset by the benefit of higher rates
- Higher Fees & Commissions primarily reflecting higher business lending and capital markets fees
- Revenue growth impacted by lower equity accounted earnings from investment in MLC Life (\$22m) and higher customer remediation (\$19m)

(1) NAB risk management comprises net interest income and other operating income and is defined as management of interest rate risk in the banking book, wholesale funding and liquidity requirements and trading market risk to support the Group's franchises. Markets forms part of Corporate & Institutional Banking and New Zealand Banking revenue. Treasury forms part of Corporate Functions and Other revenue

(2) Derivative valuation adjustment is shown net of hedging costs or benefits and includes credit valuation adjustments and funding valuation adjustments

(3) Customer risk management forms part of other operating income and reflects customer risk management in respect of Personal Banking, Business & Private Banking, Corporate & Institutional Banking and NZ Banking

Net interest margin

Net interest margin (HoH)

Key considerations for 2H24¹

- Home lending margin competition and term deposit cost headwinds moderating
- Headwind from full period impact of 1H24 deposit mix changes
- Funding costs to include ~1bps impact of TFF refinancing and increased 3 month Bills/OIS sensitivity²
- Minimal impact from liquids (broadly neutral to revenue)
- Benefit of higher swap rates on deposit and capital replicating portfolios of ~4-5bp³

Australian term deposit portfolio costs⁴

(1) Refer to key risks, qualifications and assumptions in relation to forward looking statements in disclaimer on pages 93-96

(2) 6bps move in 3 month Bills/OIS equivalent to ~1bps of NIM based on 31 March 2024 rates and balances

(3) Based on market implied 3 and 5 year swap rates trajectory as of 31 March 2024 and stable balances for the Australian and New Zealand capital and deposit replicating portfolios respectively

(4) Based on management data. Total deposit portfolio cost over relevant market reference rate. NIM sensitivity based on Mar 24 balances

Operating expenses

Operating expenses (HoH) (\$m)

Investment spend

FY24 considerations remain unchanged³

- Opex growth expected to be lower than FY23 underlying growth of 5.6%⁴
- Salary-related and Volume related headwinds expected to slow; 2H23 salary increase included \$30m one off EA related payment
- Ongoing headwinds from Technology & Investment and Depreciation & Amortisation⁵
- EU-related costs expected to be \$80-120m
- Target productivity of ~\$400m
- Investment spend expected to be ~\$1.4bn

(1) CLSR – Compensation Scheme of Last Resort
 (2) EU-related costs of \$48m (\$49m in 2H23). Customer related remediation \$20m in 1H24 (nil in 2H23)
 (3) Refer to key risks, qualifications and assumptions in relation to forward looking statements in disclaimer on pages 93-95
 (4) FY24 guidance excluding any large notable items
 (5) Depreciation & Amortisation will be subject to nature of spend and timing of deployment

Maintaining prudent balance sheet settings

Capital ratio above target range of 11.0% - 11.5%¹

Group CET1

Strong provisioning¹

CP/CRWA

LCR and NSFR well above regulatory minimums at Mar 24

GLAs increasingly funded by deposits

(1) Mar 23 and beyond reported under APRA's revised capital framework effective from 1 January 2023

(2) Pro forma CET1 ratio includes the impact of the remaining \$1.7bn of announced share buy-backs

(3) Includes senior unsecured, secured (covered bonds and securitisation), subordinated debt, AT1 instruments, RBA TFF and RBNZ funding facility drawdowns with a remaining term to maturity or call date > 12 months

(4) Excludes customer deposits in New York and London

Asset quality

Credit impairment charge (CIC) (\$m)

Watch loans³ and Non-performing exposures⁴ as a % of GLAs

Key 1H24 impacts

- CIC of \$363m reflecting volume growth in B&PB, deterioration in asset quality, and a continued low level of specific provision charge, partially offset by net \$40m release of forward looking provisions
- Watch loans and Default but not impaired ratio increase driven by B&PB and BNZ business lending portfolios, combined with higher home lending arrears across the Group
- Lower GIAs ratio includes a decrease in the portfolio of restructured loans relating to customers affected by severe weather events in New Zealand

(1) Represents collective credit impairment charge less forward looking provisions
 (2) Represents collective provision EA and FLAs for targeted sectors
 (3) Referral to Watch generally triggered by banker annual reviews through the year or as a result of performing customers experiencing cashflow pressures
 (4) Non-performing exposures is aligned to the definitions in the revised APS 220 *Credit Risk Management*
 (5) Default but not impaired includes 90+ DPD assets and Default <90 DPD but not impaired assets. Sep 19 & Sep 20 figures do not include 'Default <90 DPD but not impaired assets'
 (6) Examples of items included in Default <90 DPD but not impaired are: cross defaults, expired facilities, bankruptcy and accounts serving the APS 220 probation period

Strong provisioning maintained

Collective provision (CP) balances higher¹

(\$m)

Key considerations

- Collective provisions of \$5.4bn representing 1.47% CRWA
- Total provisions of \$5.8bn represent 1.7x 100% base case (after excluding \$450m in FLA balances from the 100% base scenario)
- Higher underlying CP reflects deteriorating asset quality
- Maintaining strong forward looking provisions given continued uncertainty including:
 - ability of customers to manage high interest rates and inflationary pressures over next 6-12 months
 - impacts of global instability including availability and cost of supplies – e.g. shipping disruptions, labour costs

(1) Mar 23 and beyond reported under APRA's revised capital framework effective from 1 January 2023

Sectors of interest

Non retail sectors of interest 90+ DPD and GIAs as % of EAD¹

Mar 24	EAD \$bn	EAD change since Mar 21 ¹	90+ DPD and GIAs as % EAD
Retail Trade	15.7	8.3%	0.94%
Tourism, Hospitality & Entertainment (THE)	14.8	9.6%	0.76%
Construction	13.8	17.9%	1.33%
New Zealand Agri	16.2	3.2%	1.35% ³
CRE - Office, retail & THE ²	44.9	7.7%	0.48%
Non retail sectors of interest	105.4	8.5%	0.83%
Total non retail book	606	16.5%	0.36%

Collective provision target sector FLAs (\$m)

(1) Mar 23 and beyond reported under APRA's revised capital framework effective from 1 January 2023

(2) CRE EAD figures are limits based on ARS 230 definitions and CRE FLAs relate to total CRE portfolio with Office, Retail and THE CRE viewed as most at risk

(3) Includes New Zealand customers affected by severe weather events classified as "Restructured loans". Excluding the impact of restructured loans, 90+DPD and impaired ratio would be 1.19% at Mar 23, 1.46% at Sep 23 and 1.29% at Mar 24

Australian housing lending

Margin considerations

- Front book/back book pricing pressures easing but margins remain below historical levels
- Refinance % of market volumes declining
 - More stable rate environment and lower fixed rate expiries
 - New purchase loans provide a better opportunity to differentiate on service
- Managing returns through a disciplined approach
 - Growing at 0.9x² system in 1H24
 - Implemented changes to improve flow through higher returning proprietary channels

RBA owner occupier VR front book pricing¹

Avg volume of back book repricing has moderated from peak

Refinance as % of market³

Proprietary applications % (PB and B&PB)

(1) Based on RBA Lenders' Interest Rates Feb 2024. Front book large institution owner occupier variable rate (net of cash rate)

(2) APRA Monthly Authorised Deposit-taking Institution statistics. Latest data as at Mar 24

(3) ABS Lending Indicators February 2024 release. 1H24 covers periods October 2023 to February 2024

Housing lending offsets and redraw balances¹

Offset & redraw balances continue to increase (\$bn)

Offset and redraw balances multiple of monthly repayments²

Scenario analysis to identify higher risk exposures

	Dynamic LVR with no LMI or FHB guarantee		
	> 80%	of which >85%	of which >90%
Repayment buffer < 12 months (Total \$225bn)	\$16.6bn	\$7.9bn	\$4.3bn
of which Repayment buffer < 3 months (Total \$176bn)	\$12.8bn	\$5.7bn	\$3.2bn

Profile of repayments <1 month, on time²

(1) Excludes line of credit, 86 400 platform and Citi Consumer Business
 (2) By accounts

Business & Private Banking business lending \$149bn

Key considerations

- SMEs entered more challenging period in good shape:
 - B&PB deposits up 42% since Sep 20 (up \$8bn in 1H24)
 - Utilisation rates modestly higher vs 1H23 but remain below pre COVID levels
- Arrears continue to increase, albeit at a slower pace than 2H23, reflecting ongoing inflationary pressures & higher interest rates
- Broad based deterioration across industries
- Arrears for sectors of interest¹ remain above book average
- Impairment activity low given strong security profile
- Portfolio remains well diversified and highly secured with material discounts applied to market valuations

90+ DPD and GIAs as % of GLAs

Security profile² Mar 24

Higher risk balances

\$bn	Total balances with PD ≥ 2%
Not fully secured	~10.0
Of which: Unsecured	~2.0

Exposures with probability of default (PD) ≥ 2%

(1) Sectors of interest refers to non-retail sectors with an FLA (Retail Trade, Tourism, Hospitality and Entertainment (THE), Construction and CRE)

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Capital remains above target range

Group Basel III CET1 capital ratio

(%)

CET1 considerations

- CET1 target range of 11.0% - 11.5%
- Further \$1.5bn share buy-back in addition to \$0.2bn remaining share buy-back announced in Aug 23
- Credit RWA growth mainly driven by housing and business lending volumes. Asset quality deterioration mainly in housing
- Dividend payout ratio guided by a range of 65% – 75% of cash earnings, subject to Board determination based on circumstances at the relevant time

Credit risk-weighted assets

(\$bn)

(1) Excludes FX translation

(2) Other RWA includes a +17bps impact due to APRA's removal of NAB's Operational Risk capital add-on in Mar 24, and a +23bps impact from IRRBB RWA

(3) Pro forma CET1 ratio includes the impact of the remaining \$1.7bn of announced share buy-backs (-40bps at Level 2 and -44bps at Level 1)

Strong funding and liquidity metrics

Key messages

- Funding and liquidity position remains strong
- Well placed for repayment of final tranches of the Term Funding Facility (TFF) in 3Q24
- Liquidity metrics well above regulatory minimums with NSFR expected to normalise to pre-COVID levels
- Term funding issuance diversified across product, currency and tenor to support balance sheet needs and manage ongoing refinancing requirements

Liquidity position well above regulatory minimums

Term funding issuance³ & maturity profile⁴

(1) Group NSFR at 31 Mar 2024 includes a 2.0% benefit from the Required Stable Funding (RSF) treatment of TFF collateral. This will no longer be available following the repayment of the TFF

(2) Average LCR for the three months ended 30 September 2022 was restated from that previously disclosed. Details of the restatement are outlined in the Appendix to the Dec 22 Pillar 3 Report

(3) Includes senior unsecured, secured (covered and RMBS) and subordinated debt with an original term to maturity or call date greater than 12 months, excludes AT1 instruments. FX rate measured at time of issuance

(4) Maturity profile of funding with an original term to maturity greater than 12 months, excludes AT1 and RMBS. Spot FX rate at 31 March 2024

Customer-related remediation

Customer-related remediation provision charges¹

(\$m)

Customer remediation

- All NAB wealth remediation has achieved practical completion and regulatory close. Residual activities continue
- JBWere remediation remains outstanding, both Adviser Service Fee remediation and inappropriate advice remediation

Breakdown of charges in continuing operations

(1) Charges were included as large notable items in FY19 and FY20. Charges are shown pre-tax and include both operating expenses and contra revenue amounts

AUSTRAC Enforceable Undertaking

Overview of Enforceable Undertaking

- Following its investigation, AUSTRAC accepted an Enforceable Undertaking (EU) from NAB in Apr 22 to lift its compliance with Anti Money Laundering / Counter Terrorism Financing (AML/CTF)
- Under the terms of the EU, NAB is required to implement a comprehensive Remedial Action Plan (RAP) involving improvements in its systems, controls and record-keeping, including:
 - NAB's AML/CTF Program
 - Applicable customer identification procedures
 - Customer risk assessment and enhanced customer due diligence
 - Transaction monitoring
 - Governance and assurance
- NAB will obtain interim reports from the external auditor on a quarterly basis and an annual basis. The external auditor will provide a final report to NAB for the period up to 31 March 2025
- The EU will end on the date that the AUSTRAC CEO provides written consent to the cancelling or withdrawal of the EU

Status as at Mar 24

- An external auditor was appointed in May 22 and continues to report to NAB and AUSTRAC periodically
- NAB continues to work closely with AUSTRAC and the external auditor to monitor and deliver agreed actions
- NAB has completed more than three-quarters of its required activities under the RAP. A number of these activities require review by the external auditor, and some of the more complex activities under the RAP have longer timeframes for completion
- NAB continues to oversee delivery of the RAP commitments through dedicated EU Governance forums
- Estimated costs of \$80-\$120m for FY24, including \$48m in 1H24. This is in addition to:
 - \$103m in FY22
 - \$105m in FY23

11.75% Pro-forma CET1⁴

Attractive shareholder returns

Cash return on equity

Total buy-backs of ~\$6.3bn completed

(1) APRA Monthly Authorised Deposit-taking Institution statistics. Latest data as at Mar 24. Business deposits exclude Government and Financial Institution deposits
 (2) Excludes impact of Citi Consumer business
 (3) Refer to key risks, qualifications and assumptions in relation to forward looking statements in disclaimer on pages 93-96
 (4) Pro forma CET1 ratio includes the impact of the remaining \$1.7bn of announced share buy-backs (-40bps at Level 2 and -44bps at Level 1)

Focusing on colleagues

Who we are here for

Colleagues

Trusted professionals that are proud to be a part of NAB

Customers

Choose NAB because we serve them well every day

Delivering better outcomes for our colleagues

New Executive Leadership Team

- Internal appointments reflect investment in talent development and leadership capability

Simplifying and automating our processes to reduce manual work

- Increasingly automating our core lending processes and use of digital documentation
- Single CRM¹ platform used by 75% of bankers (up from 40% in FY23)
- Customer Brain generating new business and retention opportunities
- Piloting GenAI tools

Colleague engagement score remains top quartile²

(1) Customer relationship management

(2) Source NAB Heartbeat survey. Top quartile comparison is based upon Glint's client group (domestic and global, from all industries)

Helping customers manage higher interest rates and cost of living pressures

NAB Assist

- Early and proactive customer engagement
- 7% increase in inbound and outbound NAB Assist customer call volumes in 1H24¹
- Offering support options including reduced repayments and payment breaks, restructures and loan term extensions

Supporting customers with money management

- Strong customer engagement with financial wellbeing tools in 1H24:

1.5m
customers used
**digital spending
tool**

>3m
digital
**financial wellbeing
interactions²**

- Upgraded digital spending tool to now predict upcoming customer bills and subscriptions; customer rollout commenced April

Protecting customers against scams & fraud and cyber security risks

- **Prevented and recovered >\$260m in scam losses** for customers since Sep 21, including >\$55m in 1H24
- **1H24 initiatives** included:
 - Real time customer payment alerts expanded to new scam typologies (e.g. invoice and romance)
 - Since Mar 23 launch of alerts, ~\$90m of customer payments abandoned in app
 - Supporting business customers to detect more suspicious behaviour by extending the use of BioCatch biometrics technology to NAB Connect
 - Offering free cyber security protection to eligible small business customers for a year with global cyber firm CrowdStrike

[Learn more about romance scams](#)

Cancel payment

Continue

(1) Consumer customers only

(2) Financial wellbeing interactions include customer uses of the spending and savings tools, and outbound financial wellbeing alerts and activities, via internet banking and mobile app

Investing to grow Business & Private Banking

Relationship banking increasingly enabled by digital, data & analytics

Business lending – simplifying and digitising

- More customers, products and channels capable of origination via digital lending platform
- Increasing digital deal submission by bankers
- Expanding digital document eligibility

Deposits & payments – innovative solutions

- Growing transaction accounts with increasing digital origination
- Enhanced solutions for payments and cashflow management – new ecommerce and online functionality, NAB Bookkeeper

Integrated Private Wealth offering

- Strong growth in Private Bank deposits and housing lending, supported by ongoing referrals across B&PB
- Expanded investment offering to include international bonds and multi currency facilities

Strong balance sheet growth YoY

Growing transaction accounts

Disciplined growth in Corporate & Institutional Banking

Focused on consistent, through-cycle returns

- **Selective balance sheet usage**, disciplined portfolio management and prudent risk settings
- Strong **customer advocacy** and rankings
- Progressing our **climate transition** agenda – update to be provided in Jun 24 climate disclosures
- Leading **transaction banking capability** and focus on growing **at call deposits**
- Continued business and process **simplification**:
 - 3 year wind down of NAB Asset Servicing (custody) from Nov 22 & progressing closure of Hong Kong (HK) branch
 - Streamlined Markets business
 - Significantly reducing customer onboarding time
 - Simpler and more digital end-to-end business lending process improving banker experiences

Long term relationships with customers in target sectors¹

Growing at call deposits over time^{2,3}

Disciplined growth driving sustainable returns

(1) Target sectors include NBFIs, Private Capital Strategic Investors, Infrastructure, Governments and Private Companies
 (2) Corporate & Institutional Banking included Bank of New Zealand's Markets Trading operations up to 30 September 2023. From 1 October 2023, these operations are reported within New Zealand Banking. Comparative information has been restated from Sep 22 onwards
 (3) Figures include impact of wind down of NAB Asset Servicing business over approximately three years from Nov 22
 (4) Represents annualised ROE implied by reported return on average RWA using mid-point of Group's target CET1 ratio range in the applicable period

Building a simple and digital Personal Bank

Performance aligned to core strategic priorities

Simple Home Loans (SHL) delivery on track

- 95% Retail proprietary flow eligible through SHL in 1H24
- 68% reduction in retail banker touch time since FY19
- Digital nudges driving higher in-app customer engagement
- Customer Brain generating leads to bankers, resulting in +125k conversations with customers

Sustainably growing deposits

- 30% growth in new transaction account openings since 1H21
- In-app budgeting and financial wellbeing tools supporting increase in digitally active customers

Scale in unsecured lending

- Credit cards growing at 1.7x system¹ supported by new account growth across NAB and Citi portfolios

Deliberate balance sheet growth YoY

Increasing digital engagement

(1) APRA Monthly Authorised Deposit-taking Institution statistics. Latest data as at Mar 24 compared to Sep 23
 (2) Excludes ubank and Citi Consumer Business customers. Includes NAB customers logging into NAB digital channels in the month
 (3) Comprises Transaction, Savings, Credit Cards, NAB Now Pay Later and Personal Loan products in the month

Integration of Citi Consumer Business is a key priority

Integration and migration timeline

- Critical **talent retained** and top quartile colleague engagement
- Outperformed **retention** targets for Citi branded products
- Leveraging Citi capability
 - Enhanced **functionality** of NAB commercial cards
 - New **wealth** talent and products in B&PB

- **Complexity** of new platform build
- **Expanded scope:** upgrading related systems e.g. marketing, payments and collections
- **More time for migration to mitigate risks:** based on ubank experience

Cost synergies on track: Citi costs of <\$300m p.a. expected post TSAs²; (estimated 2H24 run-rate ~\$350m p.a.)³

(1) Integration and migration timeframe subject to change (including for deliverables by third party partners)

(2) Transitional Service Agreements

(3) Refer to key risks, qualifications and assumptions in relation to forward looking statements in disclaimer on pages 93-96

Sustainability is embedded in our Group Strategy

Commercial responses to societal challenges

Our priorities

- Climate and environmental action
- Affordable and specialist housing
- Economic advancement of First Nations people

Resilient and sustainable business practices

- Colleagues and culture
- Inclusive banking
- Environmental, Social and Governance (ESG) risk management
- Supply chain management
- Human rights, including modern slavery

Innovating for the future

- Our future core business and market-leading data analytics
- Partnerships that matter

Aligned to six key United Nations Sustainable Development Goals¹ – where we can make the biggest impact

(1) www.un.org/sustainabledevelopment

Evolving our strategic priorities

- No major pivot to our long term strategy
- Key focus areas include greater customer centricity and ongoing simplification
- Building on solid technology foundations and good progress on our digital & data program
- Cost discipline and cultural changes embedded across the organisation remain key to long term performance
 - Get basics right
 - Maintain focus – work on what matters
 - Disciplined execution and accountability
- Team in place to carry forward execution and maintain momentum
- Completion of major projects such as integration of Citi Consumer Business and AUSTRAC EU¹ will provide capacity for investment spend on new or accelerated projects

(1) External auditor for the AUSTRAC EU to provide a final report to NAB for the period to 31 March 2025. AUSTRAC EU will end on the date that the AUSTRAC CEO provides written consent to the cancelling or withdrawal of the EU

Business & Private Banking business lending

Diversified Australian business lending growth (YoY)^{1,2}

SME lending market share (RBA)⁵

Agri business lending market share (RBA)

(1) Growth rates are on a customer segment basis and not industry

(2) NAB has modified its interpretation of the ARS 230 Commercial Property standard, with the guidance of APRA. This has seen an additional ~\$2.5bn in Australian balances now qualifying for ARS 230 reporting at Mar 23 (previously presented as "Other"). To measure growth on a consistent basis the Mar 23 balances have been adjusted to include the impact of this reporting change

(3) B&PB customers typically have borrowings up to \$50m and turnover less than \$100m. NAB Small business reflects business lending by B&PB's Business Direct & Small Business unit

(4) CRE primarily represents commercial real estate investment lending across a range of asset classes including Retail, Office, Industrial, Tourism and Leisure, and Residential

(5) Derived from latest RBA statistics. Data to Mar 2023 represents the old definition where a business is classified as SME under APRA if the business has turnover of less than \$50m and as a small business if exposure is less than \$1m. Break in series for SME and small business post Mar 23. Starting Apr 23 APRA amended the rules for SME size classification to turnover less than \$75m and the classification for small business to exposure less than \$1.5m. Historical system numbers have not been restated. Both NAB and system data post Mar 23 include adjustments to align to new APRA size classifications

Internationally comparable capital ratios

APRA to Internationally comparable CET1 ratio reconciliation

	CET1 %
APRA CET1 ratio	12.1%
Deferred tax assets, capitalised expenses and equity exposures, net of deferred fee income deducted under APRA requirements, compared to being risk weighted (subject to thresholds) in the Basel framework	0.7%
APRA requirement for IRRBB risk-weighted assets (RWA) not in the Basel framework	0.8%
APRA requirement for IRRBB RWA not in the Basel framework	0.8%
APRA requirements for residential mortgages not in the Basel framework (i.e. APRA multipliers of 1.4, 1.7 or 2.5 and standardised treatment for non-standard mortgages)	1.4%
APRA internal ratings-based approach scaling factor of 1.1 not in the Basel framework (including for exposures of the RBNZ regulated banking subsidiary)	1.2%
APRA scaling factor of 1.1 not in the Basel framework (including for exposures of the RBNZ regulated banking subsidiary)	1.2%
APRA internal ratings-based approach Income-Producing Real Estate (IPRE) multiplier of 1.5 not in the Basel framework	0.5%
RBNZ requirements for credit RWA for the RBNZ regulated banking subsidiary not in the Basel framework (i.e. farm lending exposures, mortgages and specialised lending)	0.4%
Non-retail loss given default (LGD) differences between APRA and Basel framework for certain exposures under foundation IRB and advanced IRB approaches	0.2%
Other ²	0.2%
Internationally comparable CET1 ratio³	17.5%

- (1) Internationally comparable methodology based on the Australian Banking Association publication 'Basel 3.1 Capital Comparison Study' (March 2023), which compares APRA's revised capital framework, including RBNZ prudential requirements, with the Finalised post-crisis Basel III reforms
- (2) Other includes the impact of concessional Credit Conversion Factors (CCFs) for certain credit commitments under the Basel framework, and APRA requirements for margin lending and specialised lending exposures not in the Basel framework
- (3) The Internationally comparable CET1 ratio does not include the impact of the Basel capital floor. RWA used in the internationally comparable capital ratios are higher than 55% of RWA under APRA's standardised methodology, where 55% is the Basel transitional capital floor that applies from 1 January 2024. A 50% Basel transitional capital floor applied from 1 January 2023 to 31 December 2023

Group estimated long run loan loss rate

Group business mix - GLAs by category

Estimating long run loan loss rate

NAB Australian geography net write off rates as a % of GLAs	Long run average (1985 - 2023 ²)	Long run average (2004 - 2023 ²)
Home lending ³	0.03%	0.03%
Personal lending ^{3,4}	1.53%	2.20%
Commercial ³	0.49%	0.36%
Australian average	0.31%	0.20%
Group average ⁵ based on 2024 business mix	0.24%	0.20%
Group average ⁵ based on 2024 business mix (excluding 1991-1993 and 2009-2012)	0.16%	n/a
Group average ⁵ based on 2024 business mix (excluding 2009-2012)	n/a	0.14%

(1) For 1985 Group business mix, all overseas GLAs are allocated to Commercial category

(2) Data used in calculation of net write off rate as a % of GLAs is based on NAB's Australian geography and sourced from NAB's U.S. Disclosure Document (2021 - 2023), NAB's Supplemental Information Statements (2007 - 2020) and NAB's Annual Financial Reports (1985 - 2006)

(3) Home lending represents "Real estate - mortgages" category; Personal lending represents "Instalment loans to individuals and other personal lending (including credit cards)" category; Commercial represents "all other industry lending categories" as presented in the source documents as described in note 2 above

(4) Personal lending net write off rate since 2008 is above long run average of 1.53% (1985 - 2023) or 2.20% (2004 - 2023). Average net write off rate 2008 - 2023 is 2.43%

(5) Group average is calculated by applying each of the Australian geography long run average net write off rates by product to the respective percentage of Group GLAs by product as at 31 March 2024. Commercial long run average net write off rate has been applied to acceptances

Group lending mix

Gross loans and acceptances by product - \$725.3bn

Gross loans and acceptances by geography¹

Gross loans and acceptances by business unit

Categorised assets

Watch loans¹ and Non-performing² exposures as % of GLAs

New impaired assets

(\$m)

(1) Referral to Watch generally triggered by banker annual reviews through the year or as a result of performing customers experiencing cashflow pressures

(2) Non-performing exposures is aligned to the definitions in the revised APS 220 *Credit Risk Management*

(3) Default < 90 DPD but not impaired figures only shown from Sep-21 align to the revised APS220 *Credit Risk Management*. Examples of items included in Default <90 DPD but not impaired are: cross defaults, expired facilities, bankruptcy and accounts serving the APS 220 probation period

Group provisions

Collective provision

(\$m)

Specific provision

(\$m)

Total provision

(\$m)

(1) Excluding the impact of NZ exposures affected by severe weather events classified as "Restructured loans" these ratios would be 50.1% at March 2024 (September 2023: 54.4%; March 2023: 51.1%). Collective provisions are held against these loans

Provisions

Movement in provisions¹

Underlying CP

- Model outcomes based on point-in-time data
- 1H24 increase mainly reflects volume growth in B&PB and deterioration in asset quality for the Australian retail portfolio

Economic adjustment (EA)

- Forward view of additional stress across portfolio, according to 3 probability weighted scenarios (upside, base case & downside)
- Scenarios based on forward looking macro-economic data and granular PD and LGD assumptions
- EA top-up required where probability weighted EA higher over the period (and vice versa)
- 1H24 EA increase of \$53m includes model and methodology changes, partly offset by improved base case economic outlook

Target sector FLAs

- Considers forward looking stress incremental to EA
- Net \$93m decrease in target sector FLAs mainly driven by partial release of Australian mortgages and full release of Australian energy

(1) Excludes provisions on fair value loans and derivatives

Expected Credit Losses (ECL) assessment

ECL scenarios & weightings

Total Provision for ECL ^{1,2,3}			
\$m	1H24 (probability weighted)	100% Base case	100% Downside
Total Group	5,767	3,890	8,079
Increase/ (decrease) from Sep 23	182	(110)	533
Macro economic scenario weightings			
Group Portfolio (%)	Upside	Base case	Downside
30 Sep 23	2.5	52.5	45.0
31 Mar 24	2.5	52.5	45.0

Key considerations

- Increase in ECL vs Sep 23 reflects volume growth in B&PB and asset quality deterioration in the Australian retail portfolio. Partially offset by improved base case economic outlook and a net release of \$40m from forward looking provisions
- 100% downside movement vs Sep 23 includes the impact of model and methodology changes
- NAB holds \$2,327m in provisions above the 100% base case, after excluding \$450m in FLA balances from the 100% base scenario

Total provision for expected credit losses¹

(\$m)

Economic assumptions

Australian economic assumptions considered in deriving ECL ²						
%	Base case			Downside		
	FY24	FY25	FY26	FY24	FY25	FY26
GDP change YoY	1.5	2.0	2.6	0.7	(3.1)	0.0
Unemployment	4.5	4.5	4.4	4.7	7.9	9.1
House price change YoY	5.2	3.9	3.0	(6.9)	(28.1)	(5.2)

(1) ECL excludes provisions on fair value loans and derivatives

(2) Scenarios, prepared for purposes of informing forward looking provisions, rely on NAB Economics modelling and management judgement. The base case macro-economic variables are based on NAB Economics forecasts as at 31 March 2024

(3) 100% base case, 100% downside and probability weighted scenario all include \$450m of FLAs

ECL provisioning by stages

Loans and advances by stage¹
(\$bn)

Provisions by stage²
(\$m)

Provision coverage by stage³
(%)

	Status	Type of provision
Stage 1 (12 month ECL)	Credit risk not increased significantly since initial recognition; performing	Collective
Stage 2 (Lifetime ECL)	Credit risk increased significantly ⁴ since initial recognition but not credit impaired	Collective
Stage 3 (Lifetime ECL)	Credit impaired: default no loss Credit impaired: default with loss	Collective Specific

- Significant increase in credit risk rules are not prescribed by accounting or regulatory standards
- Migration assumptions included in forward looking adjustments
- Stage 2 includes majority of forward looking adjustments

(1) Notional staging of loans and advances, including contingent liabilities and credit-related commitments, incorporates forward looking stress applied in the ECL model
 (2) Excludes collective provision on loans at fair value and derivatives which are not allocated to a stage under the ECL model
 (3) Provision coverage: provisions as a percentage of loans and advances including contingent liabilities and credit-related commitments
 (4) Significant increase in credit risk primarily determined by change in credit risk scores for business exposures and change in behavioural scoring outcomes for retail exposures

Probability of default (PD) analysis

Non-retail IRB EAD¹ by probability of default²

(\$bn)

Australia and NZ business exposures PD ≥ 2%

(1) Non-retail internal ratings based portfolios are aligned to those disclosed in the March 2024 Pillar 3 report – Table 4.3A. Total \$540bn at Mar 2024, \$528bn at Sep 2023, \$548bn at Mar 2023 and \$544bn at Sep 2022
 (2) Mar 23 and beyond reported under APRA's revised capital framework effective from 1 January 2023

Australian Business lending asset quality

Business lending credit impairment charge and as a % of GLAs

Business lending 90+DPD and GIAs and as % of GLAs

Total business lending security profile¹

Business lending portfolio quality

(1) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Agriculture, forestry & fishing exposures¹

Group EAD \$61.6bn March 2024

Key Australian considerations

- Growing conditions have improved significantly since Sep 2023, with much of the East Coast seeing good rainfall which has benefitted crop and livestock production; West Australia has also seen improvement albeit to a lesser degree
- Improved sentiment has reversed the destocking activity since Sep 23 and has contributed to a turnaround in beef and sheep prices
- Labour supply remains a challenge for primary producers and processors
- Asset valuations remain stable
- While asset quality has deteriorated from recent lows it remains below 10-year average 90+ DPD and GIAs ratio of 0.68%
- ~10% of non-retail EAD

Australian Agriculture, Forestry & Fishing

Portfolio EAD \$45.4bn March 2024

Australian agriculture asset quality

Australian agriculture portfolio well secured²

(1) Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

New Zealand Banking agriculture exposures¹

EAD NZ\$17.5bn March 2024¹

Key considerations

- 90+ DPD and impaired assets lower in 1H24 primarily due to a reduction in restructured loans relating to customers affected by severe weather events
- Farming sector remains challenged by high farm inputs inflation (fuel, fertiliser, wages) and high interest rates combined with volatility in global soft commodity prices
- Largest sector exposure is dairy at 41%, down from 56% at Sep 2016
 - outlook improved with partial recovery in Fonterra forecast Farm Gate Milk Solids price; total farm income forecast now above average production cost
 - most customers fully secured and benefitted from above average milk prices over recent years enabling amortisation of debt
- Reduced red meat returns due to softer global demand and increased supply
- Provisioning includes NZ Agri FLA of NZ\$45m

New Zealand Agri asset quality

(NZ\$m)

Portfolio well secured^{1,3}

Dairy farm viability⁴

(1) Includes ANZSIC Level 1 classifications of agriculture, forestry & fishing based on the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Mar 2024 includes a portfolio of customers affected by severe weather events. These customers have been classified as “Restructured loans” in accordance with APS 220 Credit Risk Management. Excluding the impact of the restructured loans, 90+DPD & GIA ratio would be 1.19% at Mar 23, 1.46% at Sep 23 and 1.29% at Mar 24

(3) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

(4) Source: DairyNZ Econ Tracker. Net dairy income is cash received in the year from milk, dividends and net stock sales. Total Expense includes farm working expenses, interest and rent, net drawings, depreciation and tax. 2024 represents forecast period

Commercial real estate (CRE)¹

Gross loans & acceptances (GLAs)

	Australia	New Zealand	Total ²
Total CRE (A\$bn)	64.7	6.8	71.5
Increase/(decrease) from Sep 23 (A\$bn)	1.4	(0.2)	1.1
% of geographical GLAs	10.7%	7.0%	9.9%
Change in % from Sep 23	-	(0.3%)	-

Breakdown by total GLAs

Balances over time

Group CRE Security Profile⁴

(1) Measured as balance outstanding as at 31 March 2024 per APRA Commercial Property ARF 230 definitions. NAB modified its interpretation of the ARS 230 Commercial Property standard during the September 2023 half, with the guidance of APRA. This resulted in an additional ~\$3.5bn in Australian balances qualifying for ARS 230 reporting at Sep 23

(2) Includes overseas offices not separately disclosed

(3) Developer at March 2024 includes \$1.7bn for land development and \$3.5bn for residential development in Australia

(4) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Key asset quality considerations

- **90+ DPD and GIAs** above low levels of recent years but remain below longer term historical levels. Current bias towards arrears where no loss is expected
- Higher arrears reflect customer specific situations including increased interest expenses unable to be offset by rental growth for investment lending and delayed project completions / cost over-runs in the development portfolio relating to builder/construction issues
- Higher interest rates driving down transaction **leverage (LVR)** at origination to satisfy **serviceability (ICR)** requirements
- Material portion of new and renewed CRE Investment lending over past 18 months associated with **LVRs** <60%
- Low level of **transacted volumes** reflecting a continued disconnect between vendor and purchaser price expectations
- Provisioning includes \$162m target sector **FLA**

Sector considerations

- Slower lending momentum observed in **development** segment; labour shortages in construction sector continue to challenge new development starts
- **Discretionary income** exposed assets remain a focus given elevated interest rates and cost of living pressures
- Valuation pressure and elevated vacancy rates remain evident across **Office** markets. Secondary assets² lacking Green credentials deemed higher risk, particularly those with shorter lease expiries located in CBD-type locations.
 - C&IB portfolio (~65% of Australian office) biased towards Prime/A-grade assets
 - B&PB portfolio (~35% of Australian office) typically associated with C to D grade assets located in non-CBD locations

90+ DPD and GIAs and as % GLAs³

(1) Measured as balance outstanding per APRA Commercial Property ARS 230 definitions
 (2) Refers to office assets below Prime and A-grade
 (3) Sep 13 and Sep 14 figures have been restated to reflect continuing operations for Australia and New Zealand

Exposure at default

EAD portfolio by sector and security²

Key considerations

- Availability of labour and subcontractor risks remain key challenges; new housing starts have moderated in the face of rising interest & construction costs
- ~2% non retail EAD including subcontractors and construction services
- Highly diversified and secured portfolio
- Provisioning includes \$62m target sector FLA
- ~60% of C&IB exposures are contingent facilities e.g. performance guarantees

Australian Construction	B&PB	C&IB	Total
EAD (\$bn)	9.6	2.0	11.6
# customers	~26k	~300	~26k
% Fully or Partially Secured	94%	45%	82%

90+ DPD and GIAs and as % of sector EAD

(1) Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties
 (2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security
 (3) General Construction - Non Building EAD includes construction activities such as infrastructure, leisure, irrigation, mining etc

Retail Trade¹

Exposure at default

Key considerations

- Despite population growth and accumulated consumer savings, nominal retail trade demand is moderating reflecting continued pressure on consumers
- Consumption growth is expected to weaken over the balance of FY24, as overall conditions further impact consumer budgeting including ongoing reassessment of spending priorities
- Provisioning includes \$59m target sector FLA
- ~3% non retail EAD

EAD portfolio by sector and security²

90+ DPD and GIAs and as % of sector EAD

(1) Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties
 (2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Tourism, hospitality and entertainment¹

Exposure at default

Key considerations

- Industry data suggests trading performance for Tourism and Entertainment operators remains robust, notwithstanding wage/energy cost increases and reduced savings levels
- Impacts of softer consumer confidence and discretionary spending, higher cost of living and increased interest rates not immediately reflected in current performance, but are likely to influence longer term outlook
- ~2% of non retail EAD
- Provisioning includes \$76m target sector FLA

EAD portfolio by sector and security²

90+ DPD and GIAs and as % of sector EAD

(1) Based on the ANZSIC Level 1 classifications of accommodation and hospitality, plus cultural and recreational services; based on the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

New Zealand lending mix

Portfolio breakdown by GLAs - Total NZ\$104.9bn

Mortgage portfolio breakdown by geography - Total NZ\$58.8bn

Agriculture, Forestry & Fishing portfolio breakdown by industry GLAs - Total NZ\$15.5bn

Unsecured lending

Key considerations

- Continued momentum in credit card growth in 1H24, supported by net account growth across the NAB and Citi portfolios
- Portfolio quality remains sound
 - Arrears increased in 1H24 but remain below pre-COVID 19 levels
 - Modest uptick in revolve rates ~62%, still below 2019 trend (~65-70%)

Balance and market share¹

Cards² and personal lending 90+DPD and as a % of total cards and personal lending GLAs

30+DPD as % of outstandings

(1) Market share refers to consumer cards only. APRA Monthly ADI statistics
 (2) Includes consumer and commercial cards

(5) 12 month rolling Net Write-offs / Spot Drawn Balances

Housing lending practices & policies

Key origination requirements

Income	<ul style="list-style-type: none"> Income verified using a variety of documents including payslips and/or checks on salary credits into customers' accounts 10% shading applies to rental income (Nov 22) Rental expenses included in serviceability calculation post-household expenses calculation. Rental expenses floor set at minimum 10% of rental income (Mar 23) 20% shading applies to other less certain income types
Household expenses	<p>Assessed using the greater of:</p> <ul style="list-style-type: none"> Customers' declared living expenses, enhanced in 2016 to break down into granular sub categories Household Expenditure Measure (HEM) benchmark plus specific customer declared expenses (e.g. private school fees). HEM is adjusted by income and household size
Serviceability	<ul style="list-style-type: none"> Assess customers' ability to repay based on the higher of the customer rate plus serviceability buffer (3.0%⁽¹⁾) or the floor rate (5.75%⁽²⁾) Assess Interest Only loans on the full remaining Principal and Interest term Lowered serviceability buffer to 1% for customers who meet certain criteria (Jul 23)
Existing debt	<ul style="list-style-type: none"> Verify using declared loan statements and assess on the higher of the customer rate plus serviceability buffer (3.0%⁽¹⁾) or the floor rate (5.75%⁽²⁾) Assessment of customer credit cards assuming repayments of 3.8% per month of the limit Assessment of customer overdrafts assuming repayments of 3.8% per month of the limit

Loan-to-value (LVR) limits

Principal & Interest – Owner Occupier	95%
Principal & Interest – Investor	90%
Interest Only – Owner Occupier	80%
Interest Only – Investor	90%
'At risk' postcodes	80%
'High risk' postcodes (e.g. mining towns)	70%

Other policies

- DTI decline rule of >8x from May 22 for higher risk customers (> 9x for all others)
- Lenders' mortgage insurance (LMI) applicable for majority of lending >80% LVR
- LMI for inner city investment housing >70% LVR
- Apartment size to be 50 square metres or greater (including balconies and car park)
- NAB Broker applications assessed centrally – verification and credit decisioning
- Maximum Interest Only term for Owner Occupier borrowers of 5 years

(1) Serviceability buffer increased by 0.50% to 3.00% as of 1 November 2021

(2) Serviceability floor increased by 0.80% to 5.75% as of 9 September 2022

Housing lending volume and flow movements

Housing lending flow movements¹

(\$bn)

Housing lending volume growth¹

(\$bn)

Housing lending by division

(\$bn)

(1) Excludes 86 400 platform and Citi Consumer Business

Housing lending portfolio profile

Housing lending volume by borrower and repayment type¹

Australian mortgages profile¹

Owner Occupier monthly growth^{2,3}

Investor monthly growth^{2,3}

(1) Excludes 86 400 platform and Citi Consumer Business
 (2) Only includes housing loans to households based on APRA ARF 720.1 reporting definitions, and excludes counterparties such as private trading corporations
 (3) Includes 86 400 from May 2021 and Citi Consumer Business from Jun 2022. Contains a reclassification of ~\$0.8-\$0.9bn from Home Lending to Personal Lending (results in an approximate 5bps change overall), that occurred in Nov 22, with no historical restatements from APRA published data

Australian housing lending asset quality¹

Offsets & redraws up despite higher mortgage repayments

Average offset & redraw, and average repayment per account² (\$)

Higher house prices have improved average DLVR

Average DLVR and negative equity³

Arrears increasing as % of GLAs but limited impairment activity

Key considerations

- 1H24 arrears continue to reflect broad-based deterioration by loan types and regions
- 1H24 also impacted by seasonal impacts post-Christmas
- Limited impairment - strong security position, dwelling prices continue to increase up 3.0% 1H24
- Unemployment and house prices are key to outlook

(1) Excludes 86 400 platform and Citi Consumer Business mortgages
 (2) Growth rates refer to Mar 2024 vs Mar 2022
 (3) Excludes the impact of offset accounts. Includes implementation of new CoreLogic indexing methodology in 1H24

Housing lending fixed rate portfolio profile¹

Fixed rate (FR) lending book

- \$43bn FR book, rolls to variable rate (VR) loan at expiry
- ~\$27bn (~63%) has customer rates below 3%, and only \$6.9bn still to expire after Sep 25
- 72% originated since Oct 20
- Proactive customer engagement with customers rolling off FR loans – ~85% retention to date
- 55% of customers also have a VR loan i.e. split loan
- All loans originated in past 3 years assessed on P&I basis using floor of at least 4.95% (5.75% from Sep 22) or buffer of at least 2.5% (3% from Nov 21) whichever is higher

FR housing lending volume by borrower and repayment type

FR dynamic LVR

FR home loan contractual expiry profile

(1) Excludes 86 400 platform and Citi Consumer Business

Housing lending repayment profile

Key considerations

- All VR loan repayments subject to quarterly repayment reviews from Feb 23 (previously annual)
- \$25bn FR loans expired in 1H24; 87% of all FR loans are P&I
- Early engagement underway for customers identified as potentially at repayment risk

Profile of mortgage repayments at 4.35% cash rate^{1,2,3}

Repayment profile from April 22 at 4.35% cash rate	VR P&I ⁴	FR expiring by Mar 25
% of accounts with monthly repayment increase, for which:	78%	98%
- Ave monthly % increase	42%	59%
- Ave monthly \$ increase	\$676	\$981
- % of accounts with >40% increase in monthly repayments	55%	69%

Profile of mortgage repayments at 4.35% cash rate^{1,2,3}

Variable rate principal & interest book⁴
% of Portfolio

Fixed rate book expiring by Mar 25 - \$29bn
% of Portfolio

(1) Excludes line of credit, 86 400 platform and Citi Consumer Business
 (2) By account
 (3) Analysis assumes full pass through of cash rate increases to current customer rates
 (4) Based on VR P&I loans on book at Apr 2022 and still on book at Mar 2024. Increase relative to customer repayments in Apr 2022

Housing lending arrears profile¹

Key considerations

- Recent state-based 90+ DPD trends are mixed
- Trajectory of arrears for 2017, 2018 and 2019 vintages impacted by COVID-19 responses
- Mixed early arrears trends for loans originated during period of low interest rates: 2020 and 2021 vintages not dissimilar to earlier vintages, 2022 VR vintage seasoning modestly worse
- 2020 and 2021 vintages: FR arrears trending up from 24 months on book as many convert to higher variable rates
- Numerous serviceability and lending policy initiatives since FY18 to enhance risk outcomes

Housing lending 90+DPD & GIAs as a % of GLAs

(3) Excludes customers affected by severe weather events whose loans have been classified as "Restructured Loans" under APS 220 Credit Risk Management

(4) 12 month rolling Net Write-offs / Spot Drawn Balances

Additional information

Sustainability

1H24 progress on our responses to societal challenges

Climate and environmental action

NAB will publish supplementary climate disclosures in June 2024

- **#1** Australian bank for global renewables transactions¹
- Launched NAB Green Finance for Commercial Real Estate
- >7,700 colleagues have completed NAB's Climate Foundations training, developed in partnership with Melbourne Business School, as at 31 March 2024

Economic advancement for First Nations people

- **\$1bn** target to more than double NAB's lending to First Nations businesses and community organisations by 31 December 2026 announced²
- >5,400 No Interest Loans (NILS) provided to First Nations customers in 1H24 (up 5% on 1H23), valued at ~\$8.2m

Affordable and specialist housing

- **\$6bn** target by 30 September 2029 to help more Australians access affordable housing, progress includes:
 - Supporting Good Shepherd to develop a new 40 home Marrickville site for women aged 50+
 - Supported key Community Housing Provider customers in their applications to access Housing Australia Future Fund's inaugural funding round
 - Financing customers Hacer and Local Residential to construct 400 new scalable buy-to-rent dwellings

Helping communities withstand natural disasters

- **~\$242k** in disaster relief grants provided in 1H24 to customers and communities impacted by floods, fires and storms across Australia
- **142** colleagues deployed to Rochester in 1H24 to help NAB community partner, Disaster Relief Australia, with ongoing flood recovery efforts

(1) Rankings based on IJGlobal League Table MLA, Renewables, both data for the 6-month period ending 31 March 2024, as well as on a cumulative basis from 1 January 2010 to 31 March 2024

(2) Lending target position refers to 'Gross Loans and Advances' as at the target date of 31 December 2026 to customers who have been identified as a First Nations business or community organisation. Baseline position of \$413.6m calculated as at 31 August 2023

Energy generation exposures

Energy generation EAD by fuel source^{1,2} (AUD\$bn)

- 77% of total energy generation financing to renewables (increase from 73% at 30 September 2023)²
- Growth in renewable portfolio consistent with NAB's ambition to finance the energy transition and included in 1H24 closing out our 200th renewable financing transaction
- Renewable portfolio represents a mix of wind, hydro and solar energy sources
- NAB has no direct lending² to coal-fired power generation assets remaining
- NAB has set an interim sector decarbonisation target for power generation, details available in the 2023 Climate Report

(1) Totals presented in chart may not sum due to rounding
 (2) NAB methodology (based upon the 1993 ANZSIC codes) at net EAD basis. Excludes exposure to counterparties predominantly involved in transmission and distribution. Vertically integrated retailers included and categorised as renewable where majority of their generation activities sourced from renewable energy. NAB has no direct lending to coal-fired power generation assets remaining. Note there is indirect exposure to coal fired power within the Mixed Fuel category as a result of NAB's corporate level exposure to gentailers, which have a mix of generation assets (including coal, gas and renewables) within their generation portfolio
 (3) The revised capital framework refers to revisions to APRA's capital adequacy and credit risk capital requirements for ADIs. For more information on the impact of the revised capital framework and impacts on NAB's reported EAD, see NAB's 1H23 Pillar 3 report
 (4) Disclosures from Mar 23 reported under APRA's revised capital framework, effective from 1 January 2023

Resources exposures

Resources EAD by type^{1,2,3}

(AUD\$bn)

- Decreasing exposure to thermal coal, on track to be effectively zero⁶ by 2030 excluding performance guarantees for rehabilitation of existing coal mining assets
- From 1 January 2023, the revised capital framework⁴ came into effect. The primary impact of this change on NAB's resources exposures was a reduction in EAD due to changes in the calculation of off-balance sheet EAD for certain undrawn commitments

(1) Totals presented in chart may not sum due to rounding

(2) Oil and gas extraction exposures includes lending (e.g. revolving/term lending and guarantees) and other markets-related exposures (e.g. derivatives, foreign exchange, repurchase agreements)

(3) Thermal coal exposures includes direct exposure (including lending and guarantees) to customers whose primary activity is thermal coal mining. Includes financial guarantees and performance guarantees for the rehabilitation of existing coal mining assets. Excludes metallurgical coal mining and diversified mining customers

(4) The revised capital framework refers to revisions to APRA's capital adequacy and credit risk capital requirements for ADIs. For more information on the impact of the revised capital framework and impacts on NAB's reported EAD, see NAB's 1H23 Pillar 3 report

(5) Disclosures from Mar 23 reported under APRA's revised capital framework, effective from 1 January 2023

(6) 'Effectively zero' refers to the fact that the Group may still hold some exposures to thermal coal in 2030, only through residual performance guarantees to rehabilitate existing coal mining assets. These guarantees are excluded from the financed emissions coverage of NAB's thermal coal sector target

Thermal coal mining and oil and gas limits

Thermal coal mining (AUD\$bn) exposure¹

Oil and gas extraction - (USD\$bn) exposure

- Since 30 September 2023, NAB no longer has any corporate lending to thermal coal mining customers or project finance in respect of thermal coal mining assets, NAB intends to maintain this position into the future
- BNZ is exiting all lending to thermal coal mining by the end of 2025

- Oil and gas presented in USD as majority of portfolio is denominated in USD⁴
- NAB has set an interim sector decarbonisation target for oil and gas, details available in the 2023 Climate Report

(1) Thermal coal exposures includes direct exposure to customers whose primary activity is thermal coal mining. Includes financial guarantees and performance guarantees for the rehabilitation of existing coal mining assets. Excludes metallurgical coal mining and diversified mining customers

(2) The revised capital framework refers to revisions to APRA's capital adequacy and credit risk capital requirements for ADIs. For more information on the impact of the revised capital framework and impacts on NAB's reported EAD, see NAB's 1H23 Pillar 3 report

(3) Disclosures from Mar 23 reported under APRA's revised capital framework, effective from 1 January 2023

(4) Relevant exposure conversions based on rates of AUD/USD 0.72115 (Sep 21); AUD/USD 0.74855 (Mar 22); AUD/USD 0.64925 (Sep 22); AUD/USD 0.67140 (Mar 23); AUS/USD 0.64765 (Sep 23); AUS/USD 0.6529 (Mar 24)

NAB uses cash earnings (rather than statutory net profit attributable to owners of NAB) for its internal management reporting purposes and considers it a better reflection of the Group's underlying performance. Accordingly, information is presented on a cash earnings basis unless otherwise stated. Cash earnings is not a statutory financial measure and is not presented in accordance with Australian Accounting Standards nor audited or reviewed in accordance with Australian Auditing Standards. Cash earnings is calculated by excluding discontinued operations and certain other items which are included within the statutory net profit attributable to owners of NAB. The definition of cash earnings is set out on page 10 of the 2024 Half Year Results, and a discussion of non-cash earnings items and a full reconciliation of the cash earnings to statutory net profit attributable to owners of NAB is set out on pages 96 – 98 of the same document. The Group's financial statements, prepared in accordance with the Corporations Act 2001 (Cth) and Australian Accounting Standards, and reviewed by the auditors in accordance with Australian Auditing Standards, are set out in the 2024 Half Year Results.

Certain information in this presentation has been sourced from third parties. No member of the NAB Group takes responsibility for the accuracy or completeness of such information. To the maximum extent permitted by law, no member of the NAB Group (including, without limitation, each of their respective affiliates, shareholders, directors, officers, partners, employees, advisers and agents and any other person involved in the preparation of the presentation) accept any liability for any loss or damage arising from any use or reliance on anything contained in, or omitted from, this presentation.

This presentation includes credit ratings, which may only be distributed to a person who is permitted to receive a credit rating under the applicable law of the jurisdiction in which they are located. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by an assigning rating agency and any rating should be evaluated independently of any other information.

The information contained in this presentation does not constitute or form part of any (i) offer or invitation or inducement to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities in any member of the NAB Group or any other securities or (ii) invitation or inducement to engage in investment activity within the meaning of Section 21 of the United Kingdom Financial Services and Markets Act 2000, as amended, nor shall any part of this presentation nor the fact of its distribution form part of or be relied on in connection with any contract or investment decision relating thereto, nor does it constitute a recommendation regarding the securities of any member of the NAB Group.

The presentation is not being distributed to and must not be passed on to persons in the United Kingdom, except for persons (1) who are not UK retail investors* and (2) who: (i) are investment professionals in accordance with Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or (ii) are otherwise persons to whom it may lawfully be communicated (all such persons together being referred to as 'Relevant Persons'). Each person who receives this presentation in or from the United Kingdom will be deemed to have represented, acknowledged and agreed that it is a Relevant Person.

* A 'UK retail investor' means a person who is (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of United Kingdom domestic law by virtue of the European Union (Withdrawal) Act 2018 (the 'EUWA'); and/or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the 'FSMA') of the United Kingdom and any rules or regulations made under the FSMA to implement Directive (EU) 2016/ 97 (as amended or superseded), where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of United Kingdom domestic law by virtue of the EUWA (as amended or superseded); and/or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of United Kingdom domestic law by virtue of the EUWA (as amended or superseded).

Disclaimer

This presentation is not directed at, and may not be viewed by or distributed to, persons in any Member State of the European Economic Area, except for persons who are not EEA retail investors.** Each person who receives this presentation in or from a Member State of the European Economic Area will be deemed to have represented, acknowledged and agreed that it is not an EEA retail investor.

** An 'EEA retail investor' means a person who is (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, 'MiFID II'); and/or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; and/or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129.

This presentation does not comprise a prospectus for the purposes of Regulation (EU) 2017/1129 (the "EU Prospectus Regulation") or Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "UK Prospectus Regulation"). In respect of any offering of securities, a prospectus will be made available in accordance with the EU Prospectus Regulation and may be obtained in accordance with the EU Prospectus Regulation. Investors should not subscribe for any securities except on the basis of information contained in the prospectus. The information contained in this presentation is given in confidence and you should not engage in any behaviour which would or might amount to market abuse for the purposes of the Market Abuse Regulation ((EU) 596/2014), including as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018.

Japan: National Australia Bank Limited has an office in Japan but is not licensed to conduct securities-related business in Japan. This presentation is for information purposes only and does not constitute an offer to any investors in Japan of securities issued or to be issued by NAB. Any securities issued or to be issued by NAB have not been and will not be registered under the Financial Instruments and Exchange Law of Japan, as amended ("FIEL") and may not be, directly or indirectly, offered or sold in Japan or to, or for the benefit of, any resident of Japan or to others for re-offering or re-sale, directly or indirectly in Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEL and any other applicable laws, regulations and governmental guidelines of Japan.

Explanation Regarding Unregistered Credit Ratings: In order to ensure fairness and transparency in the market, a registration system for credit rating agencies has been introduced in Japan under the amended FIEL. Accordingly, when soliciting their customers using credit ratings issued by unregistered rating agencies, financial instruments firms are required by the FIEL to inform their customers of the fact that such credit ratings are the unregistered credit ratings and to provide other related information.

Significance of the Registration: Registered credit rating agencies are subject to the following regulations: (1) duty of integrity, (2) duty to develop the business management system for the prevention of conflict of interests / securing of the fairness of the rating process, (3) prohibition of assignment of rating in cases where the agency holds the securities to be rated, (4) duty to disclose information such as preparation and release of the rating policy and to make explanatory documents available to the public. Such rating agencies are also subject to supervision by the Financial Services Agency such as requirement of reports, on-site inspection, or business improvement orders. Unregistered rating agencies, however, are not subject to the above-mentioned restrictions or supervision. For details, please see the following home page of NAB Securities Limited. Although the information was prepared from information sources which we believe to be reliable, we do not guarantee its accuracy or completeness.
